 - Planning to ask/discuss the inquiries about the project with Professor Heller at the next meeting
-

Date: 04/05/2024

Attendees:

- Damian
- Hannah
- Essmer
- Hasnatul

Agenda & Discussion Points/Notes:

- Reviewed the specification
- Downloaded the backup file and restored it to the localhost
- Went over the PDF

Summary & Next Actions:

- Read the project requirements and begin preparing to backup the BIClass database.
 - Mostly focused on instruction 3-6 from the project PDF
 - Troubleshoot backing up the files for some group members
-

Group 3 Meeting Notes Project 2

Date: 04/08/2024

Attendees:

- Damian
- Hannah
- Essmer
- Hasnatul

Agenda & Discussion Points/Notes:

- Reviewed the specification
- Went over the PDF
- Jot down/ went over the questions what confuses us
- Assigning the tables for group members to work on
- Complete the creation of the tables

Summary & Next Actions:

- Read the project requirements
 - Complete the stored procedures for all tables
 - Complete the sequence objects
 - Fixing some technical issues that arrived in backing up the files for some group members
-

Date: 04/11/2024

Attendees:

- Damian
- Hannah
- Essmer

Agenda & Discussion Points/Notes:

- Reviewed the specification
- Begin JAVA implementation.
- Create the authorization key for group members
- Discussing about the assigned procedure and split the procedure among group members

Summary & Next Actions:

- Read the project requirements
 - Make sure the procedures compile and execute correctly
 - Complete the sequence objects, views
-

Group 3 Meeting Notes Project 2

Date: 04/13/2024

Attendees:

- Damian
- Hannah
- Essmer

Agenda & Discussion Points/Notes:

- Reviewed the specification
- Fixing the issues that we had with product key and product subcategory key
- Continue troubleshooting

Summary & Next Actions:

- Read the project requirements
 - Make sure the procedures compile and execute correctly
 - Completing views, it was the last thing to focus on while working on DB
 - JDBC implementation: work on GUI for load star schema and show workflow steps
-

Date: 04/14/2024

Attendees:

- Damian
- Hannah
- Essmer

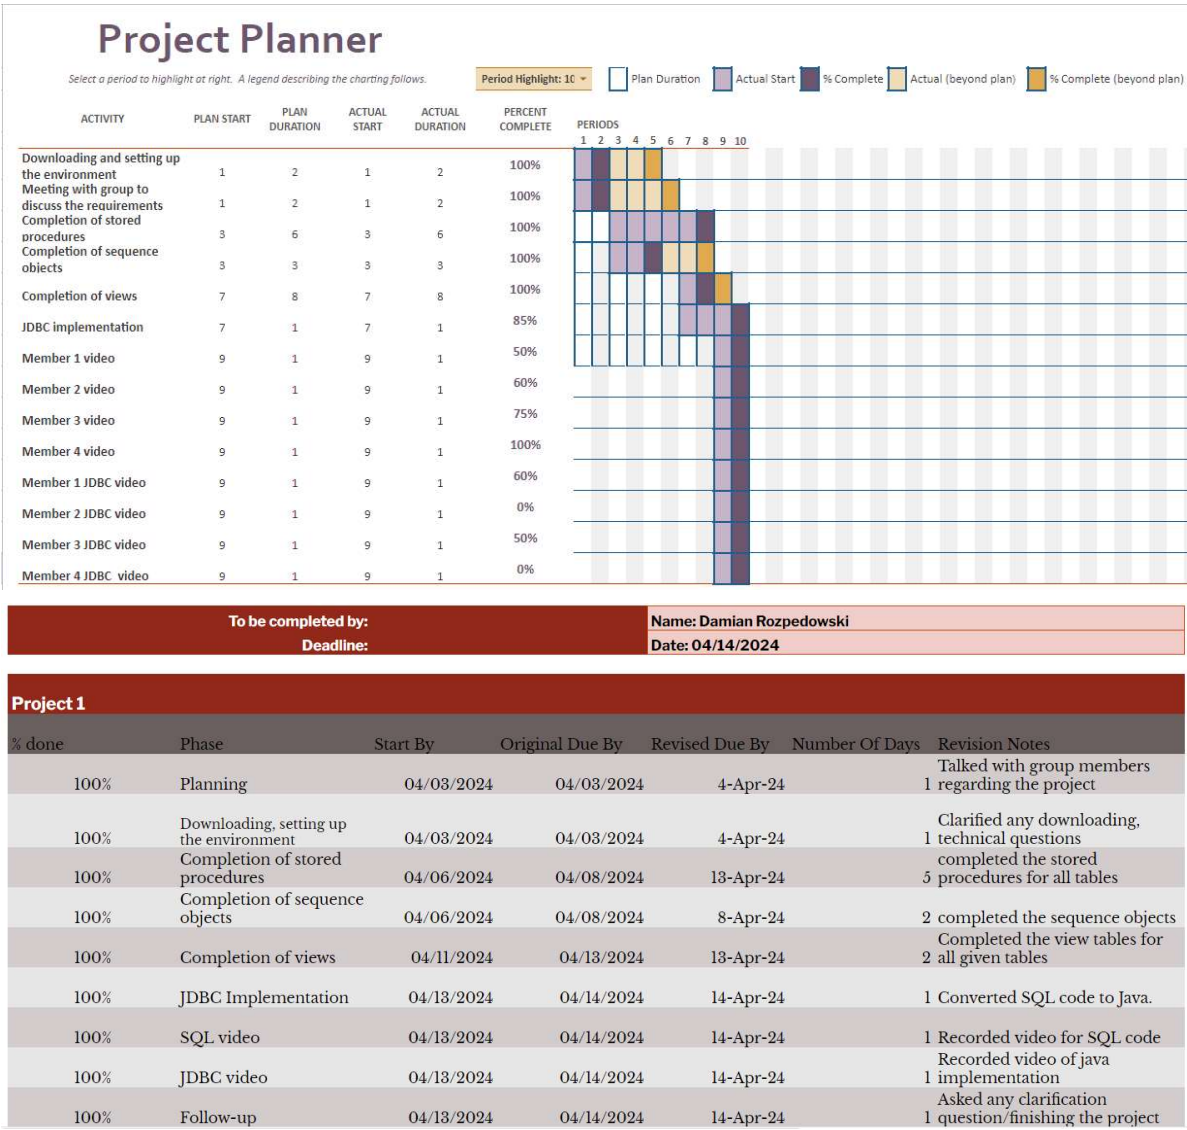

Agenda & Discussion Points/Notes:

- Complete on to-do list, Gantt chart and meeting notes
- Create the powerpoint for each members
- Checking the java file if its executing properly
- Video presentation

Summary & Next Actions:

- Read the project requirements
- Make sure everything executes correctly : Database, java mainly
- Upload the documents, files in group google drive
